Returns to Big Spring.

Mr. Ben Clarkson, who was a heavy investor in the Owensboro Panta Factory, which does not seem to have prospered as was at first thought it would, has been in the city the past few days trying to get something back of his investment. He returned to the medium of the courts. He returned to his home yesterday. Before going he said: "Yes, I am going back to the farm and I shall stay there this time. I suppose it is necessary for a young man to take chances and get on his feet. I did it and it has cost me something, but I believe I shall be more contented now."

Mr. Clarkson is one of the cleverest young men who ever came to Owensboro with the honest purpose of bettering himself and also of bettering his adopted town and his many friends regret very much that his venture was not a success.—Saturday's Owensboro Messenger.

The American Water Shows.

The Great American Water Shows were formerly known to the people of Cloverport as the Great American Water Circus, which exhibited in this city last year, giving pleasure and satisfaction to an audience of hundreds. The show this year is much larger and better than it was last year, many new and attractive features having been added. It is presented under an immense tent on a colossal barge, this manner of exhibition being a novel feature. While the management does not claim to have the largest circus in the world it claims to have one of the best now before the public. The Great American Water Shows are honestly conducted and honestly advertised, and polite treatment an attention are shown to all its patrons by its employees. Come out to the show at the afternoon or evening performance Thursday, June 30, at the river, and enjoy a moral, refined performance of killed artists.

John P. Haswell's Opinion of The Republican Convention.

When a News reporter asked John P. Haswell, Jr., about the national convention held at Chicago last week, he said: "Since it was the first National Convention I ever attended it was highly entertaining to me. All the great leaders of the party were there, and notwithstanding the fact that there was no contest, it was very enthusiastic. The demonstration when the President was nominated lasted twenty-three minutes. It was a sight never to be forgotten. Gov. Bradley's speech according the nomination of Roosevelt was strikingly eloquent and made a big hit with the great crowd. It was one of the very finest speeches delivered during the whole convention and surpassed many of them. Several of the delegates sitting next me, who were from Connecticut and Tennessee, said it was a splendid effort, and that Roosevelt should give him a place in his cabinet. Kentucky Republicans may well be proud of their brilliant and eloquent ex-governor.

"A general good feeling prevailed among the delegates and the action of the convention was unanimous throughout. It presages a great victory for Roosevelt and Fairbanks in November."

Horse Intelligence.

(Dumb Animals.)

A Boston gentleman connected with the National Tule Works sends us the following, for the truth of which he vouches:

My friend was a ship-builder; his ship-yard was some miles from his house, which distance he had to cover on horseback. He had a white horse that had served him long and faithfully in this capacity.

One day his horse fell, for some cause that I do not remember, and he was thrown to the ground and severely cut on the head.

He was unconscious for some time, and when he "came to," found the horse standing by him.

After a while he gathered himself up and attempted to mount the horse, but every time he tried he fell back.

Finally, the horse walked to the side of a large rock which stood near the gentleman, crawled along to it and after hard work got on the horse, and then the horse walked slowly and carefully home with him, the rider being in a semi-conscious condition.

The family removed him from the horse on his arrival home and put him to bed. He was a long while recovering from this accident, and one day when convalescing, the horse, being brought to the window, where the gentleman sat, showed unmistakable signs of pleasure at seeing his master once more. The gentleman is still living and can corroborate this true horse story.

The condition of Mrs. Wm. B. Minor, of Addison, is improved.

LEADERS CHOSEN.

Chicago, June 28.—Without a dissenting voice, Theodore Roosevelt, of New York, and Charles W. Fairbanks, of Indiana, were today afternoon nominated for President and Vice President of the United States by the National Republican Convention. In the case of Mr. Roosevelt the roll of states was called, but when the vice-presidential nomination was called and he was nominated the roll was dispensed with and the nomination announced by acclamation.

Starting Evidence.
Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery, Consumption Cough and Cold to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as example. He writes: "I had Bronchitis for three years and doctored all the time without any benefit. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia, and Grip. Guaranteed by Short & Haynes, Druggists. Trial bottles free, regular sizes 50c. and \$1.00.

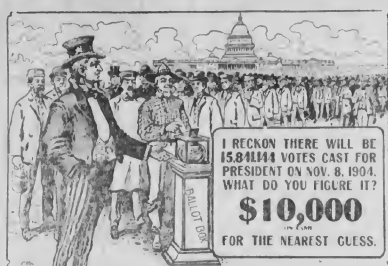

Kentuckians in Mississippi.
Jackson, Miss., June 28.—Governor Isckham, of Kentucky, and party arrived in the city this morning in a special car at 10 o'clock. They were met by Governor Vardaman, Secretary of State Joe Power, Attorney General Williams and Revenue Commissioner Adams, who composed the Mississippi capitol Commission and were driven in carriages to the new state house. They carefully went over the new building, inspecting every room and the arrangement of every department. Governor Becham expressed himself as being well pleased with Mississippi's new building. He thought it was a splendid model. The ladies of the party were also shown over the building. At 5 o'clock they were driven to the mansion, where they were received by Governor Vardaman and his wife and entertained, a delightful dinner being served. They leave tonight for New Orleans.

Where He Falls.
"It's too bad the average man can't be satisfied with a good living and not be lunging for more. He has to be. The average man is satisfied with a good living. The only trouble is that his idea of a good living grows with his knowledge."

For a Hundred Years.
For a hundred years or more Witch Hazel has been recognized as a superior remedy, but it remained for E. C. DeWitt & Co., of Chicago, to discover how to combine the virtues of Witch Hazel with other antiseptics, in the form of a salve. DeWitt's Witch Hazel Salve is the best salve in the world for sores, cuts, burns, bruises and piles. The high standing of this salve has given rise to counterfeits and the public is asked to look for the name "DeWitt" on the package, and accept no other. Sold by all druggists.

fledged candidate for the Democratic
nomination for county judge.

The hog pen has disappeared from
our midst. Now let Mayor Reid
tackle the dog fennel. It is a disease
breeder and should go along with the
hog pens.

Dr. R. L. Newsum attended the
Chicago convention. He named the
ticket before he left and came home
delighted with everything he saw
and heard.

The following excerpt from Chair-
man Cannon's speech at the Chi-
cago convention seems to us a pretty
true history of the policy of pro-
tection. He says:

"The policy of protection has been
the shield of the Republican party
from that day to this. Under this
policy, from an insignificant man in
a tiny country in 1793, by leaps
and bounds, while we still remain

Catarrh

Is a constitutional disease.
It originates in a venereal condition of
the blood and depends on that condition.

It often causes leucorrhoea and discharges.
It impairs the taste, smell and hearing, af-
fects the catarrhs, disturbs the stomach,
it is always radically and permanently
cured by the blood-purifying, alterative
and tonic action of

Hood's Sarsaparilla

This medicine has won the most
wonderful cures of all diseases depending
on scrofula or the venereal habit.

HOOD'S PILLS are the best cathartics.

Nasal

CATARRH

In all its stages.

Ely's Cream Balm

cleanses, soothes and heals the
diseased membrane.
It cures catarrh and drives
away a cold in the head
quickly.

Cream Balm is placed into the nostrils, spreads
over the membrane and is absorbed. Relief is im-
mediate and a cure follows. It is not drying—does
not produce sneezing. Large size, 50 cents at Drug-
gies or by mail. Trial size, 10 cents.

ELY BROTHERS, 56 Warren Street, New York

first in agriculture among the nations
of the earth, we have become more
than first in manufactures; more than
one-third of all the manufactured
product of the whole earth is produced
by American capital, by American
labor, which works shorter hours than
any people on earth and has more
steadily employed than any people
on earth and on the average receives
one and three-fourth dollars com-
pensation where similar labor elsewhere
receives but one dollar.

ROCK VALE.

Health generally good in this vicinity

Children's Day at Macedonia
church Sunday was the best we have
ever attended yet. There were about
one thousand people present and
plenty of dinner for all. The recitations
by the children were up-to-date, far
exceeding the expectations of the
officers of the school.

Rev. C. M. Carley and E. D. Borch,
also, delivered some very interesting
lectures on our Sunday-school work.

D. D. Oldham has sold his farm

What is "TEETHINA"? Well, 'tis
this:

A tasteless powder that will kill
From baby's brow the fever glow
That teething always brings, you
know.

"TEETHINA" overcomes and counter-
acts the effects of summer's heat,
aids digestion, regulates the bowels,
gives rosy cheeks, health and happi-
ness to babies.

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages,
and that is Catarrh. Hall's Catarrh
Cure is the only positive cure known
now to the medical fraternity. Catarrh
being a constitutional disease, requires a constitutional treatment.
Hall's Catarrh Cure is taken inter-
nally, acting directly upon the blood
and mucous surfaces of the system,
thereby destroying the foundation
for the disease and giving the pa-
tient strength by building up the con-
stitution and assisting nature in doing
its work. The proprietors have so
much faith in its curative powers
that they offer One Hundred Dollars
for any case it fails to cure. Send for
list of testimonials. Address F. J.

ily Pills for constipation.

England's Oldest Railway Station.

The only railway station in England that can boast of being really old is that atbourne, Lincolnshire, which is an ancient Elizabethan mansion, formerly in the possession of the Digby family, some members of which were implicated in the Gunpowder plot.

When the Great Northern and Midland railroads came through this district, a memorial was sent from the inhabitants ofbourne asking that in stead of pulling the old landmark down it might be converted into a railway station, for which purpose it answers admirably now. Part of the house is used as a residence by the station master.

Lengthening Life.

The difference between rising every morning at 6 and 8 in the course of forty years amounts to 29,200 hours, or 3 years, 121 days and 16 hours, which are equal to eight hours a day for exactly ten years. So that rising at 6 will be the same as if ten years of life (a weighty consideration) were added, wherein we may command eight hours every day for the cultivation of our minds and the dispatch of business.

When Cats Were Scarce.

In a curious collection of ancient Welsh laws, dated 943 A. D., appears the following sentence, from which it would appear that cats were rather scarce at that time: "The worth of a kitten until it shall open its eyes is one legal penny; from that time till it shall kill mice, two legal pennies; after that kill mice, four legal pence, and so it shall always remain."

The Other Way.

"Did I understand you to say that Skandhae was suffering from heart trouble brought about by financial embarrassment?"

"No, I said he was suffering from financial embarrassment brought about by heart trouble. The helms he was engaged to have fitted him."

REPUBLICAN PLATFORM.

The platform which was adopted by the general committee on resolutions as it came from the subcommittee, with practically no discussion, at the National Republican convention in Chicago, last week, was adopted unanimously. It is as follows:—

Fifty years ago the Republican party came into existence, dedicated, among other purposes, to the great task of arresting the extension of human slavery. In 1800 it elected its first President. During twenty-four of the forty-two years which have elapsed since the election of Lincoln, the Republican party has held complete control of the government. For eighteen more of the forty-four years it has held partial control, through the possession of one or more branches of the government, while the Democratic party, during the same period, has had complete control for only a few years. This long tenure of power by the Republican party is not due to chance. It is a demonstration that the Republican party has commanded the confidence of the American people for nearly two generations, to a degree never equaled in our history, and has displayed a high capacity for rule and government, which has been made even more conspicuous by the incapacity and infirmity of purpose shown by its opponents.

Gold Standard Established.

We firmly established the gold standard which was then menaced with destruction. Confidence returned to business, and with confidence an unexampled prosperity. For deficient revenue, supplemented by improvident issues of bonds, we gave the country an income which produced a large surplus and which enabled us only four years after the Spanish war had closed to remove or \$100,000,000 of annual war taxes, reduce the public debt, and lower the interest charges of the government.

The public credit, which had been so lowered that in time of peace a Democratic administration made large loans at extravagant rates of interest in order to pay current expenditures, rose under the Republican administration to its highest point and enabled us to borrow at 3 per cent, even in time of war.

War with Spain.

We refused to pander longer with the miseries of Cuba. We fought a quick and victorious war with Spain, and set Cuba free, gave her the island for three years, and then gave it to the Cuban people with order restored, with ample revenues, with education and public health established, free from debt and corruption.

Insular Possessions.

We have organized the government of Puerto Rico, and its people now enjoy peace, freedom, order and prosperity.

In the Philippines we have suppressed insurrection, established order, and given to life and property a security never known there before. We have organized civil government, made it effective and strong in administration, and have conferred upon the people of these islands the largest civil liberty they ever enjoyed.

By our possession of the Philippines we were enabled to take prompt and effective action in the relief of the legations at Peking, and a decisive part in preventing the partition of China, preserving of the integrity of China.

Isthmian Canal.

The possession of a route for an isthmian canal, so long the dream of American statesmanship, is now an accomplished fact. The great work of connecting the Pacific and Atlantic oceans by a canal is at last begun, and it is due to the Republican party. We have passed laws which will bring the arid lands of the United States within the area of cultivation. We have reorganized the army and put it in the highest state of efficiency.

We have passed laws for the improvement and support of the militia. We have passed forward the building of the navy, the defense and protection of our honor and our later seas.

Our administration of the great departments of the government has been honest and efficient, and where wrong doing has been discovered, the Republican administration has not hesitated to probe the evil and bring offenders to justice without regard to party or political ties.

Laws enacted by the Republican party which the Democratic party failed to enforce, and which were intended for the protection of the public against the unjust discrimination or the illegal encroachment of vast aggregations of capital, have been fearfully evaded by a Republican President, and new laws, ensuring reasonable publicity as to the operations of great corporations and providing additional remedies for the prevention of discrimination in freight rates, have been passed by a Republican Congress.

In this record of achievement dur-

ing the past eight years may be read the pledges which the Republican party has fulfilled. We propose to continue these policies and we declare our constant adherence to the following principles:

Real Protection.

Protection which guards and develops our industries is a cardinal policy of the Republican party. The measure of protection should always at least equal the difference in the cost of production at home and abroad. We insist upon the maintenance of the principles of protection, and, therefore, rates of duty should be readjusted only when conditions have so changed that the public interest demands their alteration, not this work cannot safely be committed to any other hands than those of the Republican party. To entrust it to the Democratic party is to invite disaster.

The Democratic Tariff.

Whether, as in 1902, the Democratic party declared the protective tariff to be unconstitutional, or whether it demands tariff reform or tariff revision, its real object is always the destruction of the protective system. However specious the name, the purpose is ever the same. A Democratic tariff has always been followed by business adversity; a Republican tariff by business prosperity.

No Time to Fail.

To a Republican Congress and a Republican President this great question can be safely referred. When the only free trade country among the great nations agitates a return to protection the chief protective country should not fail in maintaining it. We have extended widely our foreign markets, and we believe in the adoption of all practicable methods for their further extension, including commercial reciprocity wherever reciprocal arrangements can be affected, consistent with the principles of American agriculture, American labor, or any American industry.

We believe it to be the duty of the Republican party to uphold the gold standard as the integrity and value of our national currency. The maintenance of the gold standard, established by the Republican party, cannot safely be committed to the Democratic party, which resisted its adoption and has never given any proof since that time of belief in it or fidelity to it.

Ship Subsidy Favored.

While every other industry has prospered under the fostering aid of the Republican legislation, American shipping engaged in foreign trade in competition with the low cost of construction, low wages and heavy subsidies of foreign governments has not for many years received from the government of the United States adequate encouragement of any kind. We therefore favor the legislation which will encourage and build up the American merchant marine, and we cordially approve the legislation of the last Congress, which created the Merchant Marine Commission to investigate and report upon this subject.

Powerful Navy.

A navy powerful enough to defend the United States against any attack, to uphold the Monroe doctrine and watch over our commerce is essential to the safety and welfare of the American people. To maintain such a navy is the fixed policy of the Republican party.

We cordially approve the attitude of President Roosevelt and Congress in regard to the extension of Chinese immigration, a continuance of the Republican policy in that direction.

Civil Service Law.

The civil service law was placed on the statute books by the Republican party, which has always sustained it, and we renew our former declarations that it shall be thoroughly and honestly enforced.

We are always mindful of the country's debt to the soldiers and sailors of the United States, and we believe in making ample provision for them and in the liberal administration of the pension laws. We favor the peaceful settlement of international differences by arbitration. We commend the vigorous efforts made by the administration to protect American citizen in foreign lands, and pledge ourselves to insist upon the just and equal protection of all our citizens abroad. It is the unquestioned duty of the government to procure for all our citizens, without distinction, the rights of travel and sojourn in friendly countries, and we declare ourselves in favor of all proper efforts tending to that end.

As Regards China.

Our great interests and our growing condition of China of high importance to the United States. We cordially commend the policy pursued in that direction by the administration of President McKinley and President Roosevelt.

Franchise Laws.

We favor such Congressional action as shall determine whether by special discriminations the elective franchise in any State has been constitutionally limited, and if such is the case, we demand that Republicans in Congress and in the electoral college shall be proportionately reduced, as directed by the Constitution of the United States.

Trust Question.

Combinations of capital and of labor are the results of the economic movement of the age, but neither must be permitted to infringe upon the rights and interests of the people. Such combinations, when lawfully formed for lawful purposes, are also entitled to the protection of the law, but both are subject to the laws, and neither can be permitted to break them.

Tribute to McKinley.

The great statesman and patriotic American, William McKinley, who was re-elected by the Republican party to the Presidency four years ago, was assassinated just at the threshold of his second term. The entire nation mourned his untimely death and did just tribute to his great qualities of mind and character which history will confirm and repeat.

Roosevelt Plan of the Hour.

The American people were fortunate in his successor, to whom they brought with a trust and confidence which have been fully justified. President Roosevelt brought to the great responsibility thus forced upon him a clear head, a brave heart, an earnest patriotism and high ideals of public duty and public service. True to the principles of the Republican party and to the policies which that party had declared he has also shown himself ready for every emergency, and has met new and vital questions with ability and with success.

The confidence of the people in his justice, inspired by his public career, enables him to render personally an inestimable service to the country by bringing about a settlement of the coal strike which threatened such disastrous results at the opening of the winter in 1902.

Complete Supremacy.

The Republican party entered upon its present period of complete supremacy in 1907.

We have every right to congratulate ourselves upon the work since then accomplished, for it has added lustre even to the traditions of the party which carried the party through the storms of the civil war.

We then found the party, after four years of Democratic rule, in civil split, oppressed with misfortune and doubtful of the future. Public credit had been lowered, the revenues were declining, the debt was growing and the administration's attitude toward Spain was foolish and mortifying. The standard of values were threatened and uncertain, labor was unemployed, business was sunk in the depression which had succeeded the panic of 1893, hope was waning and confidence was gone.

We met these unhappy conditions vigorously, effectively and at once.

We replaced a Democratic tariff law based on free trade principles and garnished with sectional protection, by a consistent protective tariff, and industry freed from oppression was stimulated by the encouragement of new laws, has expanded to a degree never before known, has conquered new markets and has created a new volume of exports which has surpassed imagination. Under the Dingley tariff labor has been fully employed. Wages have risen and all industries have revived and prospered.

Foreign Policy.

Our foreign policy under his administration has not only been able, vigorous and dignified, but in the highest degree successful. The complicated questions which arose in Venezuela were settled in such a way by President Roosevelt that the Monroe doctrine was signally vindicated, and the cause of peace and arbitration greatly advanced.

The Panama Canal.

His prompt and vigorous action in Panama, which we commend in the highest terms, not only secured to us the canal route, but avoided foreign complications which might have been of a very serious character.

He has continued the policy of President McKinley in the Orient and our position in China, signified in our recent commercial treaty with that Empire, has never been so high.

He secured the tribunal by which the vexed and perilous question of Alaska boundary was finally settled. Whenever crises against humanity have been perpetuated, which have shocked our people, his protest has been made, and our good offices have been tendered, but always with due regard to international obligations.

Under his guidance we find ourselves at peace with all the world, and never were we more respected or our wishes

more regarded by foreign nations. Domestic Relations.

Presumably successful in regard to our foreign relations, he has been equally fortunate in dealing with domestic questions. The country has known that the public credit and the national currency were absolutely safe in the hands of his administration. In the enforcement of the law he has shown not only courage, but the wisdom which understands that to permit laws to be violated or disregarded opens the door to anarchy, while the strict enforcement of the law is the surest conservatism. He has held firmly to the fundamental American doctrine that all men must obey the law that there must be no distinction between rich and poor, between strong and weak, but that justice and equal protection under the law must be secured to every citizen without regard to race, creed or condition.

His administration throughout has been vigorous and honorable, high-minded and patriotic. We commend it without reservation to the judgment of the American people.

We can but We Won't

Do you think we cannot make legacies out of paint and varnish and low grade stuff and call it high grade? We can but we won't. The Geo. Delker Co. stands for good work and good material in every yard where you can see it and where you can't.

There is less profit in this kind of work, but more satisfaction to both maker and user. If it's new and up-to-date we make it. Remember the buggy makes the name, not the name the buggy.
